

## LIST OF BODIES NOTIFIED UNDER DIRECTIVE : 2006/42/EC - Machinery

Name and address of the notified bodies	Identification number	Responsible for the following products	Responsible for the following procedures or modules	Annexes or articles of the directives
AIB-VINÇOTTE INTERNATIONAL S.A. Business Class Kantorenpark Jan Olieslagerslan , 35 1800 Vilvoorde Belgium	0026	<p>1.1. Circular saws (single- or multi-blade) - sawing machinery with fixed blade(s) during cutting, having a fixed bed or support with manual feed of the workpiece or with a demountable power feed - for working with wood and material with similar physical characteristics or for working with meat and material with similar physical characteristics</p> <p>1.2. Circular saws (single- or multi-blade) - sawing machinery with fixed blade(s) during cutting, having a manually operated reciprocating saw-bench or carriage - for working with wood and material with similar physical characteristics or for working with meat and material with similar physical characteristics</p> <p>1.3. Circular saws (single- or multi-blade) - sawing machinery with fixed blade(s) during cutting, having a built-in mechanical feed device for the workpieces, with manual loading and/or unloading - for working with wood and material with similar physical characteristics or for working with meat and material with similar physical characteristics</p> <p>1.4. Circular saws (single- or multi-blade) - sawing machinery with movable blade(s) during cutting, having mechanical movement of the blade, with manual loading and/or unloading - for working with wood and material with similar physical characteristics or for working with meat and material with similar physical characteristics</p> <p>2. Hand-fed surface planing machinery for woodworking</p> <p>3. Thicknessers for one-side dressing having a built-in mechanical feed device, with manual loading and/or</p>	EC type-examination Full quality assurance	Annex IX - Art. 12 (3) (b) and (4) (a) Annex X - Art. 12 (3) (c) and (4) (b)

**LIST OF BODIES NOTIFIED UNDER DIRECTIVE : 2006/42/EC - Machinery**

Name and address of the notified bodies	Identification number	Responsible for the following products	Responsible for the following procedures or modules	Annexes or articles of the directives
		<p>unloading for woodworking</p> <p>4.1. Band-saws with manual loading and/or unloading - sawing machinery with fixed blade(s) during cutting, having a fixed or reciprocating-movement bed or support for the workpiece - for working with wood and material with similar physical characteristics or for working with meat and material with similar physical characteristics</p> <p>4.2. Band-saws with manual loading and/or unloading - sawing machinery with blade(s) assembled on a carriage with reciprocating motion - for working with wood and material with similar physical characteristics or for working with meat and material with similar physical characteristics</p> <p>5. Combined machinery of the types referred to in points 1 to 4 and in point 7 for working with wood and material with similar physical characteristics</p> <p>6. Hand-fed tenoning machinery with several tool holders for woodworking</p> <p>7. Hand-fed vertical spindle moulding machinery for working with wood and material with similar physical characteristics</p> <p>8. Portable chainsaws for woodworking</p> <p>9. Presses, including press-brakes, for the cold working of metals, with manual loading and/or unloading, whose movable working parts may have a travel exceeding 6 mm and a speed exceeding 30 mm/s</p> <p>10. Injection or compression plastics-moulding machinery with manual loading or unloading</p>		

**LIST OF BODIES NOTIFIED UNDER DIRECTIVE : 2006/42/EC - Machinery**

Name and address of the notified bodies	Identification number	Responsible for the following products	Responsible for the following procedures or modules	Annexes or articles of the directives
		11. Injection or compression rubber-moulding machinery with manual loading or unloading 13. Manually loaded trucks for the collection of household refuse incorporating a compression mechanism 16. Vehicle servicing lifts 17. Devices for the lifting of persons or of persons and goods involving a hazard of falling from a vertical height of more than three metres 22. Roll-over protective structures (ROPS) 23. Falling-object protective structures (FOPS)		
INSTITUTO DE SOLDADURA E QUALIDADE Av.Prof.Dr.Cavaco Silva, nº33 Taguspark-Oeiras 2740 -120 Porto Salvo Portugal	0028	1.1. Circular saws (single- or multi-blade) - sawing machinery with fixed blade(s) during cutting, having a fixed bed or support with manual feed of the workpiece or with a demountable power feed - for working with wood and material with similar physical characteristics or for working with meat and material with similar physical characteristics 1.2. Circular saws (single- or multi-blade) - sawing machinery with fixed blade(s) during cutting, having a manually operated reciprocating saw-bench or carriage - for working with wood and material with similar physical characteristics or for working with meat and material with similar physical characteristics 1.3. Circular saws (single- or multi-blade) - sawing machinery with fixed blade(s) during cutting, having a built-in mechanical feed device for the workpieces, with manual loading and/or unloading - for working with wood and material with similar physical characteristics or for	EC type-examination	Annex IX - Art. 12 (3) (b) and (4) (a)
